

**SUPPLEMENT 4 - Strategic Global Quality Fund**  
**DATED 9<sup>th</sup> March, 2021**  
**to the Prospectus issued for**  
**E.I. Sturdza Funds plc**

This Supplement contains information relating specifically to the Strategic Global Quality Fund (the “Fund”), a sub fund of E.I. Sturdza Funds plc (the “Company”), an open-ended umbrella investment company with segregated liability between funds authorised by the Central Bank of Ireland (the “Central Bank”) on 26<sup>th</sup> September, 2008 as a UCITS pursuant to the UCITS Regulations. As at the date of this Supplement the Company has seven other funds:

- the Strategic China Panda Fund,
- the Nippon Growth (UCITS) Fund,
- the Strategic Europe Quality Fund,
- the Strategic European Silver Stars Fund,
- the Strategic Japan Opportunities Fund,
- the Sturdza Family Fund, and
- the Strategic Bond Opportunities Fund

Details regarding each fund are set out in Supplements 1-8 of the Prospectus.

This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus for the Company dated 26<sup>th</sup> November 2020 (the “Prospectus”).

The Directors of the Company, whose names appear under the heading “Management and Administration” in the Prospectus accept responsibility for the information contained in this Supplement and the Prospectus. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement and the Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

Investors should read and consider the section entitled “Risk Factors” before investing in the Fund.

The Fund may invest substantially in money market instruments. An investment in the Fund is neither insured nor guaranteed by any government, government agencies or instrumentalities or any bank guarantee fund. Shares of the Fund are not deposits or obligations of, or guaranteed or endorsed by, any bank and the amount invested in Shares may fluctuate up and/or down.

**The Fund may, at any one time, be significantly invested in financial derivative instruments.**

**The difference at any one time between the sale price (to which may be added a sales charge or commission) and the redemption price of Shares (from which may be deducted a redemption fee)**

**means an investment should be viewed as medium to long term.**

UK taxpayers should read the section of the United Kingdom Country Supplement entitled “United Kingdom Taxation.”

**Profile of a Typical Investor:** Investment in the Fund is suitable only for those persons and institutions for whom such investment does not represent a complete investment programme, who understand the degree of risk involved (as detailed under the section headed “Risk Factors” in the Prospectus and Supplement), can tolerate a high level of volatility and believe that the investment is suitable based upon their investment objectives and financial needs.

**An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.**

## **1. Interpretation**

The expressions below shall have the following meanings:

“Business Day”	means any day except Saturday or Sunday or any day which is a public holiday in Ireland, London and the USA or such other day or days as may be determined by the Directors and notified in advance to Shareholders.
“Dealing Day”	means each Business Day following the Valuation Point.
“Dealing Deadline”	means 11.59p.m. Irish time on the Business Day preceding the relevant Valuation Point or such other time as the Directors may determine and notify to Shareholders in advance provided always that the Dealing Deadline is no later than 11:00 a.m. (Irish time) on the Business Day of the relevant Valuation Point.
“Initial Price”	means EUR / USD / CHF 100 per currency equivalent Class.
“Investment Adviser”	means Lofoten Asset Management Limited.
“Investment Advisory Agreement”	means the Investment Advisory Agreement made between the Company, the Investment Manager and the Investment Adviser dated 27 <sup>th</sup> October, 2010, as supplemented by the First Supplemental Investment Advisory Agreement dated 16 <sup>th</sup> April, 2012, the Second Supplemental Investment Advisory Agreement dated 17 <sup>th</sup> July, 2014 and the Third Supplemental Investment Advisory Agreement dated 15 <sup>th</sup> December, 2014.
“Investment Manager”	means E.I. Sturdza Strategic Management Limited.

“Valuation Point” means 5.00pm (Irish Time) on each Business Day.

“Valuation Day” means each Business Day.

All other defined terms used in this Supplement shall have the same meaning as in the Prospectus.

The A and C Share Classes of the Fund are available for Retail and Professional Investors; however are also open to Institutional Investors.

The B and SI Share Classes are deemed to be “clean” classes (i.e. non rebate paying) and are intended for Institutional Investors.

The B & SI Classes are also made available to nominee / global custodians representing underlying Institutional Investors that satisfy the minimum investment criteria across multiple accounts, firms providing non-independent advisory services, those entities that are prohibited from investing in classes which pay rebates or performance fee or providers of independent advisory services or discretionary investment management or other

distributors who:

- I. provide investment services and activities as defined by the MiFID II Directive; and
- II. have separate fee arrangements with their clients in relation to those services and activities provided; and
- III. do not receive any other fee, rebate or payment other than from their client in relation to those services and activities.

Retail and Professional Investors are not prohibited from investing in the B and SI Classes of the Fund provided they satisfy the minimum investment criteria as defined above.

### **3. Investment Objective**

The investment objective of the Fund is to achieve long term capital growth.

### **4. Investment Policy**

In order to achieve its investment objective the Fund will invest directly, or indirectly through the use of financial derivative instruments, primarily in equities and equity related instruments (such as common stock and preferred stocks) on a global basis all of which shall be listed or traded on a Recognised Exchange.

It is not intended that the Fund will invest more than 25% of its Net Asset Value in emerging markets to include Russia. Investment in Russia will only be in respect of securities which are listed and/or traded on the Moscow Exchange. There are no sectoral restrictions on the Fund's investments.

The Fund may, in accordance with the requirements of the Central Bank, invest up to 10% of its Net Asset Value primarily in ETFs (which may embed derivatives and/or leverage, although any such leverage is expected to be minimal) and other collective investment schemes that are classified as UCITS and non-UCITS open ended collective investment schemes. Investment in an ETF or collective investment scheme that can itself invest more than 10% of its net assets in other open-ended collective investment schemes is not permitted. The Fund may also invest in non-UCITS closed-ended ETFs and collective investment schemes that are regarded as transferable securities for the purposes of the UCITS Regulations.

The Fund may purchase American Depository Receipts and Global Depository Receipts for liquidity purposes and where the Investment Manager feels it is in the best interests of the Fund to do so.

The Fund is actively managed, with reference to the MSCI World NR USD Index (the "Index"), as further detailed below, for performance monitoring and calculation of performance fees. The Investment Adviser is not subject to constraints in terms of deviation from the benchmark composition and may use its discretion to invest in securities/sectors which are not included in the Index. The degree of freedom from the Index may potentially be significant. The portfolio investments shall be selected from a "bottom-up" stock selection process of companies that the Investment Adviser believes to be fundamentally undervalued. The investment approach utilised by the Investment Adviser will be highly selective, focusing on corporate value based on cash flow (operating cash flow, free cash flow and earnings before interest and tax depreciation and amortization "EBITDA") and the quality of the companies' business models, rather than changes in earnings per share. Preference will be given to companies with high free cash flows, high levels of recurring revenue, franchise stocks (typically displaying low capital intensity and high return on capital) and undervalued growth companies. The Investment Adviser expects that the portfolio exposure will normally be concentrated in around 20-30 positions.

The Fund shall not invest in companies with a market capitalisation below USD 1 billion at the time of

purchase.

The Fund may invest in exchange traded and OTC derivatives such as futures (including volatility index futures), options, warrants, equity and interest rate swaps and contracts for difference as detailed under the section of the Prospectus headed “Efficient Portfolio Management” and “Financial Derivative Instruments” for investment purposes, efficient portfolio management purposes, to indirectly gain exposure to underlying equity securities where the Investment Adviser feels it is more efficient to do so, or hedging purposes in accordance with the requirements of the Central Bank. The Fund may invest in volatility index futures up to 7.5% of the Net Asset Value to hedge the value of the portfolio against near-term volatility market expectations and for diversification purposes. Forward foreign exchange contracts may be used to hedge the value of the portfolio investments in the Fund against changes in the exchange rate between the currency of denomination of the portfolio investments and the Base Currency of the Fund. The Fund may be leveraged through the use of financial derivative instruments. The leveraged exposure of the Fund through the use of derivatives will not exceed 100% of the Net Asset Value of the Fund. The Investment Manager will seek to limit portfolio volatility through its investment approach and the effect of hedging should reinforce this.

Whilst it is the intention that the Fund be fully invested as described above, the Investment Adviser retains the flexibility to invest substantially in cash and/or money market or short-dated instruments, to include but not limited to, fixed and/or floating rate short-term government/supranational bonds with strong credit ratings of A+ or better and issued or backed by one or more EU member states, the United Kingdom, the United States or Switzerland, in circumstances where the Investment Adviser considers it to be in the best interest of the Fund to do so.

In addition, the Investment Adviser also has discretion to invest up to 10% of the Net Asset Value of the Fund in medium to long dated government bonds, which will have a minimum rating of A- as rated by Standard and Poor’s or A3 by Moody’s credit rating agencies and listed or traded on a Recognisable Exchange. Investment in medium to long dated government bonds will be made in in circumstances where the Investment Adviser considers it to be in the best interest of the Fund to do so (i.e. when current equity market, economic, political or other conditions are unstable) and would impair pursuit of the Fund’s objective and/or for hedging purposes.

The Fund will continuously invest at least 51% of its total assets directly in equities of corporations which are admitted to official trading on a stock exchange or which are listed on an organised market.

Subject to the conditions and limits set out in the Central Bank UCITS Regulations, the Fund may use repurchase agreements, reverse purchase agreements and/or stock lending agreements (“SFTs”) for efficient portfolio management purposes only, to generate additional income for the Fund. The maximum exposure of the Fund in respect of SFTs shall be 60% of the Net Asset Value. However, the Investment Manager does not anticipate that the Fund’s exposure to SFTs will exceed 20% of the Net Asset Value. Further details are set out under the section of the Prospectus headed “Efficient Portfolio Management” and ‘Securities Financing Transactions and Total Return Swaps”.

The Investment Manager will measure the performance of the Fund against the MSCI World Net Total Return Index (the “Index”) (Bloomberg Ticker NDDUWI Index). The Index is a free float weighted equity index that monitors the performance of large and mid-cap representation stocks listed in developed markets on a global basis. MSCI classifies each company and its equity securities by country, free float adjusts the total market capitalisation of all securities, classifies them in accordance with the Global Industry Classification Standard (“GICS”), screens them for size and liquidity and then initiates the securities selection process to target 85% of free float adjusted market capitalization in each country. The MSCI World Net Total Return indices reinvest dividends after deduction of withholding taxes, using (for international indexes) a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties.

This Fund has been classified as promoting environmental or social characteristics under Article 8 of the Sustainable Finance Disclosure Regulation (EU) 2019/2088 (‘SFDR’). The Fund’s approach pursuant to Article 8 SFDR can be found in Annex 1 of this Supplement.

## **5. Risk Management Process**

The Company will employ a risk management process which will enable it to accurately monitor, measure and manage the risks attached to financial derivative positions and details of this process have been provided to the Central Bank. The Company will use the commitment approach to measure the Fund’s global exposure. The Fund will not utilise financial derivatives which have not been included in the risk management process until such time as a revised risk management process has been submitted to the Central Bank. The Company will provide on request to Shareholders supplementary information relating to the risk management methods employed by the Company including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

## **6. Offer**

Details of the Share Classes on offer, together with details of the initial offer period (“Initial Offer Period”) and initial price (“Initial Price”) are set out above in Section “2. Classes of Shares”.

The initial offer period may be shortened or extended by the Directors. The Central Bank will be notified of any such shortening or extension.

### *Subsequent Issue*

Following the close of the Initial Offer Period for a Class, Shares are issued at the Net Asset Value per Share in the relevant Class as at the relevant Valuation Point.

## **7. Minimum Subscription and Minimum Holding**

Details of the Minimum Subscription and Minimum Holding for each Class are set out above in Section “2.

Classes of Shares”.

A Shareholder may make subsequent subscriptions, conversions and redemptions in all Share Classes, a minimum transaction size will not be applied.

The Directors reserve the right to waive or reduce the Minimum Subscription and Minimum Holding size for a Class at their discretion.

## **8. Application, Redemption and Conversion via an Electronic Dealing Provider**

Where an electronic dealing provider is used by an investor to invest in the Shares of any Class, or such investor holds interests in Shares of any Class through accounts with an electronic dealing provider, such investor will only receive payments in respect of redemption and / or any dividends attributable to the Shares on the basis of the arrangements entered into by the investor with the electronic dealing provider. Furthermore, any such investor will not appear on the register of Shareholders, will have no direct right of recourse against the Fund and must look exclusively to the electronic dealing provider for all payments attributable to the relevant Shares. The Company will recognise as Shareholders only those persons who are at any time shown on the register of Shareholders for the purposes of: (i) the payment of dividends and other payments due to be made to Shareholders (as applicable); (ii) the circulation of documents to Shareholders; (iii) the attendance and voting by Shareholders at any meetings of Shareholders; and (iv) all other rights of Shareholders attributable to the Shares. None of the Company, the Investment Manager, the Investment Adviser, the Administrator, the Depository or any other person will be responsible for the acts or omissions of the electronic dealing provider, nor make any representation or warranty, express or implied, as to the services provided by the electronic dealing provider.

## **9. Application for Shares**

Applications for Shares may be made through the Administrator (whose details are set out in the Application Form). Applications accepted and received by the Administrator prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any applications received after the Dealing Deadline for a particular Dealing Day will be processed on the following Dealing Day unless the Directors in their absolute discretion otherwise determine to accept one or more applications received after the Dealing Deadline for processing on that Dealing Day provided that such application(s) have been received prior to the Valuation Point for the particular Dealing Day. Applications received after the Dealing Deadline but prior to the Valuation Point will only be accepted in exceptional circumstances, as determined and agreed by the Directors, and having regard to the equitable treatment of Shareholders.

Initial applications should be made using an Application Form obtained from the Administrator or the Distributor and may, if the Company so determines, be made by telefax or email subject to prompt transmission to the Administrator of the original signed application form and such other papers (to include documentation relating to money laundering prevention checks and identification of applicable taxation status) as may be required by the Administrator. Anti-money laundering documentation is required to be received prior to an application for Shares being processed. The Directors reserve the right to refuse

applications to transact in Shares if required anti-money laundering documentation is not received. Details of the AML documentation required will be detailed in the Application Form. No redemptions will be paid until the original Application Form and such other papers as may be required by the Administrator have been received and all anti-money laundering procedures have been completed. Investors are required to obtain a copy of the Key Investor Information Document for the Fund and its Share Classes prior to subscribing to the Fund. Investors will be required to represent (which representation will form part of the Application Form) that they have received a copy of the relevant Key Investor Information Document in paper or electronic form. The Key Investor Information Document(s) will be available from the Distributor and from the following website [www.ericsturdza.com](http://www.ericsturdza.com). Subsequent applications to purchase Shares following the initial subscription may be made to the Administrator (subject to an Investor having received a copy of the relevant Key Investor Information Document in paper or electronic form) by telefax, email or electronically (in such format or method as shall be agreed in writing in advance with the Administrator and subject to and in accordance with the requirements of the Administrator and the Central Bank) or such other means as may be permitted by the Directors and agreed with the Administrator in accordance with the requirements of the Central Bank, without a requirement to submit original documentation and such applications should contain such information as may be specified from time to time by the Administrator. Amendments to a Shareholder's registration details and payment instructions will only be made following receipt of original written instructions from the relevant Shareholder.

#### *Fractions*

Subscription monies representing less than the subscription price for a Share will not be returned to the investor. Fractions of Shares will be issued where any part of the subscription monies for Shares represents less than the subscription price for one Share, provided however, that fractions shall not be less than 0.001 of a Share.

Subscription monies, representing less than 0.001 of a Share will not be returned to the investor but will be retained by the Company in order to defray administration costs.

#### *Method of Payment*

Subscription payments net of all bank charges should be paid by CHAPS, SWIFT or telegraphic or electronic transfer to the bank account specified in the Application Form. No interest will be paid in respect of payments received in circumstances where the application is held over until a subsequent Dealing Day.

#### *Currency of Payment*

Subscription monies are payable in the currency of denomination of the relevant Class. The Company will not accept applications for Shares in currencies other than the currency of denomination of the relevant Class in which the applicant has elected to apply for Shares.

### *Timing of Payment*

Payment in respect of subscriptions must be received in cleared funds by the Administrator no later than two Business Days following the relevant Dealing Day (or such later day or time as the Directors may determine). If payment in cleared funds in respect of a subscription has not been received by the relevant time, the Company or its delegate may charge the relevant investor for any costs incurred due to late settlement (i.e. interest charges and administration costs) and/or cancel the allotment and the cost of cancellation (i.e. any loss, cost, expense or fee suffered by the Company as a result of the non-receipt of monies) may be charged to the relevant investor.

### *Confirmation of Ownership*

Confirmation of each purchase of Shares will normally be made available to Shareholders within 2 Business Days of the relevant Dealing Day.

Title to Shares will be evidenced by written confirmation of the entering of the investor's name on the Company's register of Shareholders and no certificates will be issued.

## **10. Redemption of Shares**

Requests for the redemption of Shares should be made to the Administrator, whose details are set out in the Application Form, by facsimile, written communication, email, electronically (in such format or method as shall be agreed in writing in advance with the Administrator and subject to and in accordance with the requirements of the Administrator and the Central Bank) or such other means as may be permitted by the Directors, and agreed with the Administrator in accordance with the requirements of the Central Bank, and should include such information as may be specified from time to time by the Directors or their delegate. Requests for redemption received prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any requests for redemption received after the Dealing Deadline for a Dealing Day will be processed on the next Dealing Day unless the Directors in their absolute discretion determine otherwise, provided that such request has been received prior to the Valuation Point for the relevant Dealing Day. Redemption requests received after the Dealing Deadline but prior to the Valuation Point will only be accepted in exceptional circumstances as determined and agreed by the Directors and having regard to the equitable treatment of Shareholders.

No redemption payment will be made from an investor holding until the original Application Form for the initial subscription and all documentation required by or on behalf of the Administrator (including any documents in connection with anti-money laundering procedures and identification of the applicable tax status) has been received from the investor and the anti-money laundering procedures have been completed. Subject to satisfaction of all of the requirements of the Administrator (including but not limited to receipt of the original Application Form and all documentation required by the Administrator for anti-money laundering purposes and identification of the applicable tax status) the original redemption request will not be required prior to payment of redemption proceeds.

In the event of a Shareholder requesting a redemption which would, if carried out, leave the Shareholder holding Shares having a Net Asset Value less than the Minimum Holding, the Company may, if it thinks fit, redeem the whole of the Shareholder's holding.

The redemption price per Share shall be the Net Asset Value per Share.

#### *Method of Payment*

Redemption payments will be made to the bank account detailed on the Application Form or as subsequently notified to the Administrator in writing. Redemption payments following processing of instructions received by telefax will only be made to the account of record of a Shareholder.

#### *Currency of Payment*

Shareholders will be repaid in the currency of denomination of the relevant Class from which the Shareholder has redeemed Shares.

#### *Timing of Payment*

Redemption proceeds in respect of Shares will normally be paid within two Business Days of the relevant Dealing Day (and in any event should not exceed ten Business Days from the relevant Dealing Deadline) provided that all the required documentation has been furnished to and received by the Administrator.

#### *Withdrawal of Redemption Requests*

Requests for redemption may not be withdrawn save with the written consent of the Company or its authorised agent or in the event of suspension of calculation of the Net Asset Value of the Fund.

#### *Compulsory/Total Redemption*

Shares of the Fund may be compulsorily redeemed and all the Shares may be redeemed in the circumstances described in the Prospectus under the sub-headings "Compulsory Redemption of Shares" and "Total Redemption of Shares".

## **11. Conversion of Shares**

Subject to the Minimum Subscription and Minimum Holding of the relevant Fund or Classes, Shareholders may request conversion of some or all of their Shares in one Fund or Class to Shares in another Fund or Class or another Class in the same Fund in accordance with the procedures specified in the Prospectus under the heading "Conversion of Shares". Requests for conversion of Shares should be made to the Administrator by facsimile, written communication or electronically (in such format or method

as shall be agreed in writing in advance with the Administrator and subject to and in accordance with the requirements of the Administrator and the Central Bank) or such other means as may be permitted by the Directors and should include such information as may be specified from time to time by the Administrator.

## **12. Dividend Policy**

It is not the current intention of the Directors that dividends be recommended for payment to Shareholders in the Fund.

## **13. Suspension of Dealing**

Shares may not be issued, redeemed or converted during any period when the calculation of the Net Asset Value of the relevant Fund is suspended in the manner described in the Prospectus under the heading "Suspension of Valuation of Assets". Applicants for Shares and Shareholders requesting redemption and/or conversion of Shares will be notified of such suspension and, unless withdrawn, applications for Shares will be considered and requests for redemption and/or conversion will be processed as at the next Dealing Day following the ending of such suspension.

## **14. Investment Adviser**

The Investment Manager has elected, and the Company has consented, to the appointment of Lofoten Asset Management Limited, whose address for service is at 5 Claridge House, 32 Davies Street, London W1K 4ND, as an investment adviser to the Fund to provide investment advice and discretionary investment management services pursuant to the Investment Advisory Agreement.

Each of the Investment Manager and the Investment Adviser shall be entitled to terminate the Investment Advisory Agreement on or after 30 September 2020 (the "Termination Date") by giving to the other parties not less than six months' notice in writing expiring at any time after the Termination Date. However the Company may, by giving six months' notice in writing to the Investment Manager and the Investment Adviser, terminate this Agreement prior to 30 September 2020.

The Investment Advisory Agreement may be terminated by notice in writing to the other parties if (i) the other parties shall commit any breach of the provisions hereof and shall not have remedied such breach within 30 days after being required to do so by notice in writing given by the first party or (ii) any of the other parties makes an assignment for the benefit of creditors, becomes insolvent or goes into liquidation or into any similar proceedings (other than voluntary liquidation for the purposes of reconstruction or amalgamation forthwith to be carried into effect) or a receiver is appointed over any of its assets.

In the absence of negligence, fraud, bad faith or wilful misconduct on the part of the Investment Adviser, the Investment Adviser shall not be liable to the Investment Manager for any loss suffered as a result of any act or omission in the course of, or connected with, rendering services under the Investment Advisory Agreement and shall not be liable in any circumstances for indirect, special or consequential loss or damage. The Investment Adviser shall hold harmless the Investment Manager, its employees, delegates

or agents from and against all actions, proceedings, claims, damages, costs, demands and expenses including without limitation, legal and professional expenses on a full indemnity basis which arise due to the negligence, fraud or wilful default on the part of Investment Adviser, its employees, delegates or agents in the performance of its obligations under the Investment Advisory Agreement.

## **15. Fees and Expenses**

The fees and operating expenses of the Company are set out in detail under the heading “Fees and Expenses” in the Prospectus.

### **Administrator’s Fees**

Details of the Administrator’s fees are set out under the heading “Fees and Expenses” in the Prospectus.

### **Depository’s Fees**

Details of the Depository’s fees are set out under the heading “Fees and Expenses” in the Prospectus.

### **Investment Manager Fees**

The Company shall pay the Investment Manager out of the assets of the Fund an annual fee accrued at each Valuation Point and payable monthly in arrears. Details of the fee payable to the Investment Manager in respect of each Share Class are set out above under Section “2. Classes of Shares”.

### **Performance Fee**

The Investment Manager is entitled to a performance related fee (“Performance Fee”) payable by each Share Class as detailed above in Section “2. Classes of Shares”. The Performance Fee will be taken into account at each Valuation Point in the calculation of the Net Asset Value of the Fund and will be paid out of the assets of the Fund semi-annually in arrears following the calculation of the net asset value on each of 30 June and 31 December until 30 June 2020 and thereafter paid out of the Fund annually in arrears following the calculation of the net asset value on the last Business Day of December (a “Payment Date”) commencing on the 31 December 2021, further details of which are set out below.

The Investment Manager shall be entitled to a Performance Fee equal to a percentage of the relative outperformance, if any, of the Net Asset Value per relevant Share (before deducting the amount of any accrued liability for a Performance Fee) over the MSCI World Net Total Return Index (the “Index”) (Bloomberg Ticker NDDUWI Index). Details of the performance fee payable per Class are set out above under Section “2. Classes of Shares”.

### **Calculation of the Performance Fee**

The Performance Fee shall be calculated at each Valuation Point and is accrued in the calculation of the

Net Asset Value of the Fund on each Valuation Day. The Performance Fee, if any, shall crystallise upon redemption and on each Payment Date. The Performance Fee will be calculated on a Share by Share basis with reference to the "Start Date" which shall be the later of a) the Payment Date at which the Performance Fee was last paid out of the Fund in respect of that Share or b) the date of issue of the Share. The amount payable on the Payment Date shall be equal to the aggregate of the Performance Fees accrued in the Net Asset Value of the Fund on Shares in issue and any Performance Fees crystallised on redemptions since the last Payment Date.

The Performance Fee will be calculated using the relative "high water mark" methodology which means that a Performance fee will only accrue and be payable on a Share in respect of the relative outperformance of that Share against the Benchmark since the Start Date.

In the event that Shares produce a return that represents a relative underperformance in relation to the Benchmark since the Start Date, no Performance Fee will be accrued in respect of these Shares. Further, no additional Performance Fee will be accrued in respect of these Shares until these Shares have fully recovered both the relative underperformance in relation to the Benchmark and also reached a level of relative outperformance since the Start Date.

For the avoidance of doubt, the Performance Fee shall be paid from the Fund upon the Payment Date in the event of negative performance by Shares, provided that Shares have outperformed the Benchmark since the Start Date.

The Performance Fee will be calculated by the Administrator and the calculation of the Performance Fee is verified by the Depositary.

Net realised and unrealised capital gains and net realised and unrealised capital losses will be included in the Performance Fee calculation at each Valuation Point. As a result a Performance Fee may be paid on unrealised gains which may subsequently never be realised.

The Initial Price at the date of launch of each Share Class will be taken as the starting price for the first Performance Fee payable.

### **Investment Adviser Fee**

All fees payable to any appointed Investment Adviser shall be paid by the Investment Manager out of the remuneration it receives pursuant to the terms of the Investment Advisory Agreement.

### **Distributor**

It is not the current intention of the Directors to charge a placement/front end load fee. If it is at any stage in the future proposed to charge any such placement/front end load fees, reasonable notice shall be given to Shareholders.. In the event of a placement/front end load fee being charged, the difference at any one

time between the sale and redemption price of Shares in the Fund means that the investment should be viewed as medium to long term.

### **Redemption Fee**

It is not the current intention of the Directors to charge a redemption fee. If it is at any stage in the future proposed to charge a redemption fee, reasonable notice shall be given to Shareholders to facilitate redemption prior to a redemption fee taking effect. In the event of a redemption fee being charged, Shareholders should view their investment as medium to long-term.

### **Anti-Dilution Levy**

It is not the current intention of the Directors to apply a general anti-dilution levy to all applications for subscriptions and redemptions from the Fund. If it is at any stage in the future proposed to apply a general anti-dilution levy, reasonable notice shall be given to Shareholders.

### **Research Costs**

From 01 January 2018 the Investment Adviser will arrange for research costs to be paid for through a research payment account. As a result, an annual fee for research costs will be charged to the Fund and will be accrued at each Valuation Point and be payable monthly in arrears into the research payment account at a rate not exceeding 5bps per annum of the average Net Asset Value of the Fund.

## **16. Risk Factors**

The attention of investors is drawn to the “Risk Factors” section in the Section of the Prospectus entitled the “Company”. In addition, the following Risk Factors are specific to the Fund:

### Investment in Equity and Equity-Related Securities

The Fund may invest in equity and equity-related securities traded on recognised stock exchanges. Equity securities will be subject to risks associated with such investments, including fluctuations in market prices, adverse issuer or market information and the fact that equity and equity-related interests are subordinate in the right of payment to other corporate securities, including debt securities. The value of these securities varies with the performance of the respective issuers and movements in the equity markets generally. As a result, the Fund may suffer losses if it invests in equity securities of issuers where performance falls below market expectations or if equity markets in general decline or the Fund has not hedged against such a general decline. Futures and options on futures on equity securities and indices are subject to all the foregoing risks, in addition to the risks particularly associated with futures and derivative contracts.

Investors in the Fund must recognize that, due to the inherent characteristics of equity markets, the value of their investment can go down as well as up, and that they may not receive back the monies originally

invested. The Fund intends to invest primarily in global markets and, therefore, there is a risk to investors by reason that the Company is exposed to a number of economic regions, any one of which might experience adverse market conditions at any time. In addition, the liquidity in markets can vary and it may not always be possible for the Fund to disinvest or invest in any particular market. A proportion of the Fund's assets may from time to time be held in foreign currencies and therefore at times may be affected by fluctuations of currency markets.

#### Concentration of Investments

If the Fund invests up to the maximum permitted under the investment restrictions described in Appendix I of the Prospectus in the securities of single issuers and / or in economic sectors this concentration and lack of diversification relative to the capital of the Fund could mean that a loss in any one such position or a downturn in a sector in which the Fund is invested could materially reduce the Fund's performance. Thus, any substantial investment by the Fund relative to overall assets in the securities of a single issuer or the concentration of the Fund's investments in a particular industry may increase the level of risk associated with an investment in the Fund.

#### Investment in Cash and Money Market Instruments

The Fund may invest substantially in deposits with credit institutions and/or in money market instruments. An investment in the Fund is neither insured nor guaranteed by any government, government agencies or instrumentalities or any bank guarantee fund. Shares of the Fund are not deposits or obligations of, or guaranteed or endorsed by, any bank and the amount invested in Shares may fluctuate up and/or down.

#### Investment in Russia

Whilst fundamental reforms relating to securities investments and regulations have been initiated in recent years there may still be certain ambiguities in interpretation and inconsistencies in their application. Monitoring and enforcement of applicable regulations remains uncertain.

Equity securities in Russia are dematerialised and the only evidence of ownership may be entry of the shareholder's name on the share register of the issuer. The concept of fiduciary duty is not well established and shareholders may, therefore, suffer dilution or loss of investment due to the actions of management without satisfactory legal remedy. Furthermore, the standard of corporate governance and investor protection in Russia may not be equivalent to that provided in other jurisdictions.

#### Securities Lending Risk

As with any extensions of credit, there are risks of delay and recovery. Should the borrower of securities fail financially or default in any of its obligations under any securities lending transaction, the collateral provided in connection with such transaction will be called upon. The value of the collateral will be maintained to equal or exceed the value of the securities transferred. However there is a risk that the value of the collateral may fall below the value of the securities transferred. In addition, as the Fund may

invest cash collateral received, subject to the conditions and within the limits laid down by the Central Bank, the Fund investing collateral will be exposed to the risk associated with such investments, such as failure or default of the issuer of the relevant security.

#### Key Man Risk

Insofar as the role to provide investment advice and recommendations towards the Fund has been appointed to the Investment Adviser by the Investment Manager, it is likely that the decisions that lead to investment recommendations are focused with a small number of senior individuals within the Investment Adviser. As a result, there will likely be a degree of key man risk arising from the potential loss of knowledge and expertise arising from the departure or inability to act of a key person that possesses significant subject matter, expertise and tenure to provide services towards the Fund on behalf of the Investment Adviser. The Investment Manager therefore has adopted specific policies to address key man risk in the event that such an event arises, which may include the suspension or termination of the relevant investment advisory agreement or to provide a recommendation to the Company to consider the closure or winding up of the Fund.

#### **17. Investment Restrictions**

Notwithstanding Point 3.1 of Appendix I – Investment Restrictions in the Prospectus, the Fund may not invest more than 10% of its net assets in aggregate in other collective investment schemes.

## Annex 1

### **Fund's approach pursuant to Article 8 SFDR**

In identifying investments which allow the Fund to promote environmental, social and governance characteristics ("ESG"), the Investment Manager has established a two-pillar framework which is applied to the Fund:

#### **First pillar: Ensure adherence to an established exclusion list of industries that are prohibited for investment:**

The Investment Manager's established exclusion list prohibits investment in companies that are involved in the transport or sale of controversial weapons. The other companies included in the exclusion list are those where more than 10% of their revenues are derived from: thermal coal, oil sands, arctic oil and gas exploration, shale energy, small arms, predatory lending, whaling, tobacco products or adult entertainment. The Investment Manager and Investment Adviser use a global leader in ESG, Corporate Governance research and risk ratings, (the "Provider") to monitor the product involvement of underlying companies. The established exclusion list is reviewed periodically unless a specific event necessitates an out-of-cycle review.

#### **Second pillar: The Investment Manager will work closely with the Investment Adviser to ensure that ESG risks and considerations are integrated into the Fund's investment process:**

In addition to using traditional financial metrics when selecting portfolio constituents, the Investment Manager also requires the Investment Adviser to incorporate ESG factors into the investment decision making process, with a focus on investments in companies that have either fully adopted sustainable practices, or those that are actively transitioning their business models to more sustainable practices.

In order to evaluate the ESG risks of companies, the Investment Manager and Investment Adviser have access to externally sourced ESG research from the Provider. Risk ratings from the Provider are categorised across five risk levels, from negligible to severe and provide detailed analysis of each environmental, social and governance risk at a company level. Each established investment position is monitored, and the Investment Manager has established an ESG Committee to maintain risk oversight along with the Risk Committee. If a company is rated high or severe the ESG Committee will engage with the Investment Adviser to understand the business case for holding the position. With regards to companies with a severe risk rating, the ESG Committee requires the Investment Adviser to justify in writing why they are holding this position (e.g. is the company actively transitioning to more sustainable practices). Depending on the outcome of this discussion, the Investment Manager has the authority to require the Investment Adviser to divest within a reasonable time frame.

## Other considerations

In addition to monitoring ESG risks, the Investment Manager expects the Investment Adviser to actively engage with the underlying companies. When assessing the governance practices of companies, each Investment Adviser should be able to satisfy itself that the companies follow good practices, in particular with respect to sound management structures, employee relations, remuneration of staff and tax compliance. The Investment Manager also emphasises the importance of using its voting rights in order to ensure a culture of strong corporate governance. The Investment Manager aims to vote on all of its proxies and utilises a leading voting services provider to assist with this. Annual voting reports will be published on the Investment Manager's website.

The Investment Manager monitors the social and environmental characteristics through actively monitoring all portfolios on a regular basis to ensure compliance with its responsibilities as a signatory to the UN Principles for Responsible Investment and under its own defined objectives outlined in its Responsible Investment Policy. The Investment Manager is also a member of the Institutional Investors Group on Climate Change (IIGCC), a European membership body for investor collaboration on climate change. Under this obligation, the Investment Manager intends to monitor the carbon footprint of each portfolio using data from the Provider, and to encourage the Investment Adviser to engage with the underlying companies on strategies to improve their carbon footprint and to reduce/mitigate climate-related risks.

To comply with requirements issued by the French authorities (AMF position DOC-2020-03) the Investment Manager and Investment Adviser will also:

- Ensure the average ESG risk rating of the Fund's portfolio will be better than the average ESG risk rating of the universe into which the Fund can invest. The investment universe into which the Fund can invest has been defined as securities listed or traded on a Recognised Exchange.
- The proportion of the Fund's portfolio with an ESG rating must be higher than:
  - 90% for equities issued by large capitalisation companies whose registered office is located in developed countries, debt securities and money market instruments with an investment grade credit rating, or sovereign debt issued by developed countries;
  - 75% for equities issued by large capitalisation companies whose registered office is located in emerging countries, equities issued by small and medium capitalisation companies, debt securities and money market instruments with a high yield credit rating or sovereign debt issued by emerging countries.

The use of an external ESG data provider by the Fund may result in:

- issues related to missing or incomplete information from some companies (for example relating to their capacity to manage their ESG risks) which may have been used as input in the data providers'

scoring model; this problem may be mitigated by those providers through the use of alternative data sources, external to the company, to feed their scoring models;

- issues linked to the quantity and quality of ESG data to be processed by ESG data providers (significant flow of information to be integrated continuously into their ESG scoring model): this problem may be mitigated through the use of technologies like artificial intelligence and the numerous analysts who work to transform raw data into relevant information; and
- issues linked to the identification of relevant factors for the ESG analysis conducted in accordance with the ESG data provider framework. This is usually set beforehand as each sector (and sometimes each company) has its own set of indicators deemed material by the ESG data provider and its own weightings: ESG data providers may use a quantitative approach validated by each sector specialist and investor feedback to determine the most relevant ESG factors for a given sector (or for a particular company if applicable).
