

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Strategic China Panda Fund (the "Fund")

A sub-fund of E.I. Sturdza Funds plc ("the UCITS") managed by E.I. Sturdza Strategic Management Limited. A USD Share Class ISIN: IE00B3DKH950 (the "Representative Class").

### INVESTMENT OBJECTIVE & POLICY

The objective of the Fund is to achieve long-term capital appreciation in the value of the assets by investing in China-related securities listed in, but not limited to the Greater China region. To achieve its objective the Fund will invest primarily in equities or other asset classes representing the return of equity securities focusing on the markets of greater China, namely China, Hong Kong, Taiwan and Singapore.

The Fund's investments will be primarily listed on a Recognised Stock Exchange and target underlying investments that can easily be bought or sold in the market with few liquidity constraints. The Fund may invest up to 30% of its Net Asset Value into China A-shares either directly via the China-Hong Kong Stock Connect Programmes or indirectly via Participation Notes ('P-Notes')

The Fund may use financial derivatives such as listed futures and options as well as over the counter traded positions such as equity swaps, participation notes and pass through notes both to hedge the value of the assets within the investment portfolio or to gain additional investment exposure. It is therefore possible that a proportion of the Fund's assets may be invested in financial derivative instruments, which may enhance or detract from the Fund's performance. The Fund is actively managed, with reference to the MSCI TR Net China Index (the "Index") for

performance monitoring and calculation of performance fees. The Investment Adviser is not subject to constraints in terms of deviation from the benchmark composition and may use its discretion to invest in securities/sectors which are not included in the Index. The degree of freedom from the Index may potentially be significant.

You can buy and sell your shares in the Fund on a daily basis. Shares in the AD GBP Class are distributing shares, meaning the Fund may elect to pay a dividend on these Shares. Shares in all other share classes of the Fund are accumulating Shares, as such income from the Fund's investments will be included in the value of the shares rather than being paid as a dividend.

This Fund is deemed appropriate for investors who plan to invest for the medium to long term.

Pursuant to the EU's Sustainable Finance Disclosure Regulation (EU) 2019/2088 ('SFDR'), this Fund is classified as a fund that promotes environmental or social characteristics. The Fund will have an averaged ESG score higher than the averaged ESG score of its initial investment universe. For more information on this Fund's investment approach with respect to sustainability and non-financial criteria, please refer to Annex I of the Fund's prospectus supplement or [www.ericsturdza.com](http://www.ericsturdza.com).

### RISK & REWARD PROFILE OF THE FUND

The risk indicator is based on historical data and may not be a reliable indicator of the future risk profile of the Fund, is not guaranteed and may change over time. The lowest category does not mean risk free.

The risk indicator for the Fund (proxy) is set as 6, which reflects the historic price performance of the Fund. Factors that affect the portfolio include:

Investments in equity securities are subject to fluctuations in value dependent on market conditions which will directly affect the value of investments held by the Fund. The Fund invests with a single country focus which will increase the risk of investing when compared to a fund that invests in a globally diversified range of countries.

The investment's will be focussed on China, which is an emerging market. Historically, the risk of investing in emerging markets is higher than the risk of investing in developed markets.

Investments through the Shanghai-Hong Kong Stock Connect are subject to additional risks which may include, inter alia,

quota limitations, default risk, currency risk, clearing risk, settlement risk and custody risk.

Additional risks of investing in this Fund include:

**Custody and Settlement Risk:** the risk that the transactions entered into by the Fund are not settled or registered as appropriate.

**Emerging Market Risk:** the risks associated with investing in emerging markets, which may be less well-regulated, politically exposed, insufficiently liquid or highly volatile.

**Financial Derivatives Risk:** the risk that financial derivatives may increase or reduce exposure to underlying assets and may create gearing; therefore their use may result in greater fluctuations of the Net Asset Value of the Fund.

**Liquidity Risk:** the risk that the assets of the Fund may have low levels of liquidity in some circumstances.

**Operational Risk:** the risks associated with correctly reflecting the value and safekeeping of the assets of the Fund.

**Taxation Risk:** the risk of changes in taxation regimes, including legal and regulatory changes.

The Prospectus and Supplement provide further details about other risks the Fund may be exposed to – please refer to the "Practical Information" section for details of how to obtain a copy.

## CHARGES FOR THIS FUND

### One-off charges taken before or after you invest

Entry charge	-
Exit charge	-

### Charges taken from the Fund over a year

Ongoing charges	1.75%
-----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance Fee	15.00% of relative outperformance, if any, of the Net Asset Value per Share (before deducting the amount of any accrued liability for a performance fee) over the MSCI China NR USD Index.
-----------------	--

The entry and exit charges shown are maximum figures. These charges represent the amount that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charge is based on estimated fees and expenses that the Representative Class will pay in one year. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry / exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see the relevant section in the Supplement, which is available at [www.ericsturdza.com](http://www.ericsturdza.com).

## PAST PERFORMANCE %

Past performance is not a guide to future performance. The value of your investment may go down as well as up and you may not get back the amount you originally invested.

The chart shows the Fund's annual performance in USD terms for each complete calendar year since the representative classes inception. It is expressed as a percentage change of the Fund's net asset value at each year end.

Performance is shown after deduction of ongoing charges and performance fees. Any entry or exit fees are excluded from the calculation.

Benchmark performance from 2017 is with regards to the MSCI China NR USD Index, whilst prior periods reflect the returns of the MSCI China PR USD Index. The approach was adjusted to align the reporting and performance fee calculation benchmarks.
